

# GUYANA GEOLOGY AND MINES COMMISSION

## VACANCY NOTICE

Applications are invited from suitably qualified persons to fill the under-mentioned pensionable vacancy: -

### **MANAGER, GEOLOGICAL SERVICES**

**Reports to:** The Commissioner

#### **ACCOUNTABILITY OBJECTIVE:**

Responsible for planning, directing and coordinating research activities with respect to the management and administration of the **Geological Services Division** to locate and identify natural resources.

#### **Responsibilities**

This person is responsible for:

**VISITING** exploration operations and reviewing Mining Company activities, exploration reports, maps and data.

**PROVIDING** technical advice and available information, maps and data for investors in the industry.

**PLANNING, DIRECTING** and **COORDINATING** research activities to develop new methods for measuring physical characteristics to provide data for mineral exploration.

**OVERSEEING** the examination, analysis and classification of minerals, gems and precious stones.

**MONITORING** the investigation of the composition, structure and history of rock masses formation in Guyana and overseeing the application of findings to such fields of investigation as causes of formations, breaking down and weathering, chemical composition and forms of deposition of sedimentary rocks, methods of eruption and origin and causes of metamorphosis.

**COORDINATING** the provision of quality geological, geochemical, geophysical and mineral resource information, maps and technical services, promoting and monitoring exploration and creating awareness of mineral potential and prospects in Guyana.

**MONITORING** activities related to conducting research, analysis, synthesis and experimentation on solid and gaseous materials, substances and compounds for purpose, of product and process development, quality control, quantitative and qualitative analysis, improvement of analytical techniques, methodologies and procedures, and application of new products.

**PROMOTING** and supporting increased and diversified mineral exploration and development, including the conduct of geological mapping, geophysical and geochemical surveys, and mineral resource assessment, while meeting standards.

**PROVIDING** good quality and efficient services and products for customers and effective liaison with key stakeholders.

#### **QUALIFICATIONS, KNOWLEDGE AND EXPERIENCE:**

Post-Graduate Degree in Geology, Geochemistry, Geophysics, Geoscience along with five years' experience at a senior Management Level, in a similar setting.

Or

A First Degree in Geology with eight years' experience at a Senior Management Level, in a similar setting.

Specialist courses in petrology, economic geology, stratigraphy or geophysics. Ability to integrate analyses and direct work-related activities. Knowledge of computer systems to integrate and interpret data sets of geological information for the Geological Information Management System would be useful.

Senior Professional with experience in carrying out independent research and prospecting surveys. Experience in collation and synthesis of geology and geotechnical results (lithology, stratigraphy, structural and economic geology) and application of GIS techniques would be useful.

#### **Applications should be sent to:**

**The Commissioner  
Guyana Geology & Mines Commission  
Upper Brickdam,  
Georgetown**

Or

**Emailed to: [commissioner@ggmc.gov.gy](mailto:commissioner@ggmc.gov.gy)**

**Only shortlisted candidates would be contacted.**

**Applications should be submitted No later than May 13, 2022.**
